

Bharati Vidyapeeth's College of Engineering, Lavale, Pune in Corona Pandemic Period also Achieves a Great Campus Placements Season with Selection of 300 plus Students

Since March 2020, during this corona pandemic period also, Campus Placement Season is in full swing at Bharati Vidyapeeth's College of Engineering, Lavale, Pune with many multinational companies visiting for campus placements which has resulted in selections of more than 300 students and offers of maximum package of 12 lacs per annum and average package of 4 lacs per annum. Placement track record of the college in last three years has been excellent with 152 selections from BE 2018-19, 121 offers for BE 2019-20 and 127 employed for BE 2020-21 batches in various reputed multinational companies.

December 2021, till date, Tata Consultancy Services has selected 22 students, Wipro 25, Persistent Systems 9, Vodafone 9, Tata Advanced Systems 7, Minda Industries Ltd. 6, Virtusa 5, to highlight specially, Mu Sigma has selected one girl at the package of 40 Lakhs over four years and Byju's, one boy at 10 Lakhs per annum CTC and including various other reputed multinational companies, prominent placement count is 109 from current final year which will be passing out in 2022.

Majority of the students show inclination towards Core Engineering Branch companies as well as software companies and therefore normally they keep both the options open, finally select the best option and join the company. Eminent list of recruiters include Tata Consultancy Services, Wipro, Tata Advanced Systems, Minda Industries Ltd., Infosys, Vodafone, Xoriant (USA), Icon Group (Singapore), JPMC investment bank, FIS Global Fintech, Cognizant, Persistent Systems, Loreal, Bosch, Escorts Ltd., Vertiv Emerson, Capgemini, Denasa Buildcon, ITC Infotech, Zensar Technology, Big four consulting firms like Deloitte and PWC, Accenture, JTP (Japan), Nihilent Technologies, Virtusa, Apisero, Evosys Mastek, Amazon, eInfochips, Hexaware, Pune Metro Station, Various Buildcon /Construction/Infrastructure Companies and many more. Maximum opportunity wise package of 24 Lakhs (International) and 26 Lakhs (Domestic) per annum is offered to the students. Since the placement inception of well-placed alumni 2016 batch, 90% plus students are being placed each and every year, against the eligible job seekers, such is an excellent placement track of the college.

Campus placement preparation begins from the first year of engineering to learn and gain the expected employability skills with special focus on the application of core branch engineering, technical and communication skills. College has up skilling tie ups with the niche skilled experts from the industry and reputed companies like Barclays, Zensar, Test Yantra (Qspiders), Face, Ethnus, Seventh Sense, IBM and Vodafone. Company specific mock tests (Online and paper tests), Interviews, Group discussions, Company specific placement modules prepared by the college especially for every branch, Mechanical, Civil, E&TC and Computer Engineering play a vital role in building practical engineering knowledge and enhancing the job skills of a student as well as special emphasis is given on the overall personality development of the student.

First year intake of the college is 240 having four branches of Bachelor of Engineering (B.E.), Mechanical, Civil, Electronics and Telecommunication and Computer Engineering. Every year 50-55% final year students, 120-132 students opt for private MNCs and SMEs jobs and other 45-50% students go for higher education in various international universities, govt. jobs, other competitive exams, research and patents with paper publications, industrial projects and consultancy, innovation, entrepreneurship and start-up.

Placement prediction is excellent for new first year admits, BE 2025 passing out batch students. 100 placements (Job Offers) in the first set of software and core engineering companies like Accenture, Infosys, TCS, Wipro, Capgemini and Cognizant with an additional core engineering branch job offer too. Trend of students towards engineering in the future is going to increase with focus on more specialized electives, honor courses and improvement in quality of university syllabus in academics, teaching and learning and overall trainings and placements.

Students are the best testimonials of this engineering college; achievement and success of them brings accolades, further progress and development in college vicinity and nearby industrial MIDCs like Pirangut, Hinjawadi and PCMC keeps on contributing for the same. Four year degree engineering academics, industrial internships and sponsored projects, trainings and placements, passed out eminent alumni and great network of industry resources, all these factors combined together makes it happen, it's a teamwork.

The College Principal, All Heads of Departments, Teaching and Non-Teaching Staff, Training and Placement Officer and Dept. Coordinators (Core Faculty members and Student Leaders) are contributing continuously in the best of their capacity to achieve these milestones and this is very well appreciated in industry-institute-interaction circle and community.
