NOTICE

All the Students of Mechanical are hereby informed that the ANSYS work bench course is scheduled for the academic year (2019-2020) for up skilling student knowledge in the domain of CAE, Total duration of the course is 40 Hrs. Interested students should register your name to Prof. S.P.Dhamone on or before 26/09/2019 in CAD Lab, The course is collaboration with IFS Academy and Course fee 2500/-

Course Outline

- Introduction to FEA
- ANSYS Workbench Environment
- Design Modeler user interface
- Material Creation, standard materials, Material properties for specific analysis
- Meshing: Types of meshing, Assembly meshing methods, Mesh quality Various types of constraints and Loads, Load steps and controls Creating and using planes and co-ordinate systems Processing Solution Viewing different results, reactions, error estimation and convergence 1D problems of trusses, beams and frames Plane stress, plane strain and axis symmetric problems Problems on plates and shells Problems of 3D structures
- Assembly analysis: Creating and importing assembly components, Different connections, post-processing techniques Structural Analysis
- Thermal Analysis
- Combined Structural and Thermal analysis
