Feedback Teaching Learning Analysis Report (2023-24) SEM I

Feedback about Teaching learning process has been collected offline and the response of the students is summarized for the following subjects. TE-Comp **Total Response: 62**

Sr. No	Name of the Subject	Avg. Response from the students	Suggestions from Students
1	Database Management System	Excellent	Increase the pace of teaching, incorporate more real-world examples.
2	System Programming and Operating System	Very Good	Include additional practical examples , offer hands-on lab sessions.
3	Computer Network and Security	Excellent	Provide Assignments on each unit to enhance learning.
4	Seminal and Technical Communication	Very Good	Organize more student presentations. include peer reviews for feedback.
5	Theory of Computation	Poor	Add more lectures to cover the material, provide additional resources for self-study.
6	Software Project Management	Very Good	Provide more detailed explanations and practical advice. conduct guest lectures.

Action Taken Report on Feedback Teaching Learning

Following the analysis of student feedback, faculty members received targeted suggestions to enhance their teaching practices. Faculty with excellent and very good ratings will focus on incorporating real-world examples, practical applications, and additional student presentations. For subjects needing improvement, such as Theory of Computation, provided more lectures and resources. The department head has accepted the improvement review, and a basic course for the 2023–2024 academic year is proposed to address identified gaps. Overall, these initiatives aim to foster a more effective and supportive learning environment for all students.

Sr.No	Name of the Subject	Improvement
1	Database Management System	Incorporated real world examples & Overall teaching was good.
2	System Programming and Operating System	The teaching method was effective, although there should have been a subject-related webinar.
3	Computer Network and Security	Assignments given on each unit to enhance learning
4	Seminal And Technical Communication	Organized presentations and peer reviews were taken.
5	Theory of Computation	Provided additional study materials for self-study.
6	Software Project Management	Overall teaching was improved and good.

Action Taken Report on Feedback Teaching Learning

Following analysis of the students' replies, faculty received targeted suggestions to improve their teaching methods. For courses with very good to excellent responses, initiatives like workshops on data visualization in Data Science, self-study resources in Web Technology, hands-on labs in Cloud Computing, and guest speakers in Artificial Intelligence are encouraged. Letters of appreciation have been given by faculties with good response rates. The department head has accepted the improvement review for the feedback analysis mentioned above. The suggestions provided are improved for the 2023–2024 academic year.

Sr.No	Name of the Subject	Improvement
1	Data Science and Big Data Analytics	Overall teaching was good a workshop on python language and python libraries was conducted.
2	Web Technology	Teaching process was good. Hands-on projects were implemented.
3	Cloud Computing	Overall teaching was good.
4	Artificial Intelligence	Teaching process was good. Discussions on current AI trends were held.
