

Name- Sejal Gedam.

Name Of Company- **GTL, Pune**

Hello guys!

This is Sejal Gedam studying in Bharati Vidyapeeth's College of Engineering. I had the incredible opportunity to immerse myself in the world of Front-End Development, during my recent internship at **GTL, Pune**. It was just a whole new experience throughout the month of journey working which carried so many memories that it would last long.

Through this Internship, I honed my skills in designing webpages, ensuring that the website looked and worked flawlessly. Also people there were always supportive and eager to help to put in the hard work. They encouraged me to ask questions, seek assistance when needed, and actively engage in knowledge-sharing sessions. This collaborative atmosphere boosted my technical knowledge. This exposure to diverse perspectives not only improved the quality of my code but also improved my ability to communicate and collaborate effectively within a team setting.

This internship gave me an opportunity to get face to face with the software industry. The possible outcome for me was to learn all the basics of coding, working in real projects and managing balance between college and Internship. It was such a wonderful once in a lifetime experience.

I would like to thank our Principal Sir Dr. R. N. Patil, HOD of Computer department Dr. Uday Patkar sir, my guide Prof. Megha Patil ma'am who guided me wherever I needed.

Thank you.

Name: Snehal Bhagat

Name of the Company: **Defense Institute of Advance Technology, Girinagar, Pune.**

Hello everyone,

I am Snehal Bhagat, student of TE. E&Tc Engineering. I have completed my internship at Defense Institute of Advance Technology, Girinagar PUNE. My internship has been an extremely rewarding experience. Spending such a valuable time under the guidance of people who want to share their knowledge of all the technological advancements with you and help you become a better scientist is invaluable. I learnt about Arduino programming, communication, Critical Thinking, Sensor integration, Problem solving and developed a Range Finder model using Arduino board. I am thankful to the Department of E & Tc Engineering and the institute internship cell for giving me this opportunity.

Name: Isha Khedkar

Name of the company:- **Logsun Systems,Pune.**

As an intern, I developed skills around testing, analyzing, and improving certain key controls in designing the electronic circuits. As the semester progressed, I could tell that I was learning a lot and it was interesting to incorporate concepts I learned in the classroom to my work and vice versa. This internship was very valuable to me because I was able to learn more about what designing circuits and the typical tasks those are performed. In addition, I developed my communication and meeting skills, which will help me for when I get my first full time position.

Name: Kaveri Chavanke

Name of the company : **Sivananda Electronics Pvt. Ltd. Pune.**

As an intern I had the opportunity to integrate skills and concepts I have learned in the classroom. Most of my role was centered around researching, designing that enhanced my research, time management, and communication skills. I'm thankful for this opportunity as it allowed me to integrate my passion to grow more in the electronics industry.

Name: Rushikesh Shinde

Name of Company : **Kankaria Engineering Pvt. Ltd.**

Bharati Vidyapeeth's College of Engineering, Lavale has given me many opportunities to explore myself not just in terms of academic but also in practical application of knowledge. The learning and working experience goes hand to hand to enhance my skills efficiently! I got to test my skills through various internships which are provided by our college's internship cell. It helped me to explore something more and innovative side of knowledge. I'm really thankful for the support of the internship cell."

Name: Shrikant Dhok

Name of company:- **Kraft Power Con Indian limited, Chakan Pune.**

My internship experience gave me insight to see what it would be like to work as a intern for a company. My work was to design, construct, test and repair IGBT based rectifiers. This experience allowed me to see how my interest in electronic model designing translated to using my skills professionally by working for a real company. I am thankful to the institute for their support in shaping my career path.

Name: Swapnil Raskar

Name of the company :- **Lumax Automotive Industries Ltd, Pune.**

I am sincerely grateful to the College Internship Cell for facilitating such a rewarding internship at Lumax Automotive lighting industry. This experience has been instrumental in my personal and professional development, allowing me to apply classroom knowledge to real-world scenarios. I extend my deepest appreciation for their efforts in connecting students with meaningful learning experiences, which have undoubtedly prepared me for future endeavors. Thank you for your dedication and support in shaping my career path.

Name: Vibha Ovhal

Name of the company :- **Automotive research association of India (ARAI)**

I am immensely grateful to the college internship cell for offering me remarkable internship opportunity at ARAI. The experience has been instrumental in shaping my professional journey and up scaling my skills. The internship cell's dedication and efforts in securing diverse and enriching placements have significantly contributed to my personal and professional growth. I extend my heartfelt thanks to the entire team for their unwavering support and commitment to providing students like me with invaluable opportunities to thrive in the real world.

Name: Neha Jasud

Name of the company : **YAZAKI INDIA PVT LTD**

During the four weeks internship program, I worked with YAZAKI INDIA PVT LTD.

The Skills I learnt during the internship was project management, teamwork, problem-solving, and technical expertise in areas relevant to the automotive industry. They gave us hands on exposure on Cutting, Crimping, Taping, Soldering, H.S.T, Part assembly, Layout of the electronic parts. It was just a good start to enter into the industry. Thanks to the department of Electronics & Telecommunication Engineering, the institute internship cell for this opportunity.

Name- Manoj Rathod.

Name Of Company- **Kranti Industries Ltd, Pune**

I am writing to provide feedback on my recent internship experience at **Kranti Industries Ltd, Pirangut, Pune**. Overall, it has been an enriching and insightful journey, and I would like to share my thoughts with you.

Firstly, I would like to express my gratitude to kadam sir and patil sir for their guidance and support throughout my internship. Their expertise and willingness to mentor me have contributed significantly to my learning and professional growth.

During my time at Kranti Industries Ltd, Pirangut, I had the opportunity to work on a different departments such as quality, production,NPD, Maintenance and store . These experiences have allowed me to apply the theoretical knowledge gained in the classroom to real-world situations, enhancing my understanding of the subject matter and improving my problem-solving skills.

Moreover, I found the facilities and resources provided by Kranti Industries Ltd to be conducive to productivity. Whether it was access to state-of-the-art equipment or training sessions to enhance our skills, the company ensured that interns had everything they needed to succeed in their roles.

In conclusion, my internship experience at Kranti Industries Ltd, Pirangut, has been incredibly rewarding, both professionally and personally.

Thank you once again for facilitating this internship opportunity, and please feel free to reach out if you require any further information .

Name- Rafat Shaikh.

Name Of Company- **DRAN Engineers Pvt ltd, Pune**

Hey, my name is Rafat Shaikh and I'm currently studying in T.E Mechanical. I completed my internship at **DRAN Engineers Pvt ltd**. The company manufactures different types of fixtures and custom ordered Robotic arms. I was a project intern and was assigned under a project engineer named Mr Akshay Patil, during my time in the company I got to work on a project for Ashok Leyland, I also learned the basics of documentation and design sheets used in the industry. I also learned a lot about ERP software and its uses. The environment in the company was friendly and my supervisors were always ready to answer any queries I had. I also got the opportunity to operate a pneumatically powered fixture and also interact with the clients for the said fixture. Overall it was a really unique experience and I got hands on knowledge about various concepts of engineering. The internship also opened a whole new set of career opportunities that I was not aware of. I would like to thank my collage for giving me this opportunity to work in a proper industry like setting. Lastly, every single student should complete at least one internship during their time in collage as the experience and knowledge you gain by working cannot be replicated in the four walls of classroom.

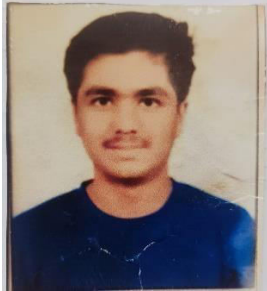

Name - Anshuman Lakkad

Name Of Company- **DRAN Engineers Pvt ltd, Pune.**

Hi, my name is Anshuman Lakkad currently studying in TE Mechanical Engineering, I did my internship at Dran Engineers Pvt Ltd, Nahre, Pune and it was my best days of working at a such a great company. So basically, I was a project intern, work was basically to Check the received raw material and close the work order in Clarity ERP software. Make check list and send it to the respective Supervisors. Every day we used to have meetings about the previous day, what work was completed by each employee, solving the problems If any, and giving presentation to the all the GM's.

I would like to thank my college to grant me one months of time to experience the industry work and work under such a great company.

The internship cell is doing an amazing job in providing the students the right platform to experience the actual work that is needed in the industry currently. Lastly I would like to say that internship should be done by each and every student so that he/she gets to know the real work done in the industry.

Name- Bhavesh Mourya.

Name Of Company- **DRAN Engineers Pvt ltd, Pune**

Hello, my name is Bhavesh Mourya and I'm a TE Mechanical Engineering student currently. I completed my internship at Dran Pvt Ltd in Nahre, Pune, and they were the best days I've ever worked at a company of that calibre. In essence, my job as a project intern was checking the raw materials that were received and closing work orders in the Clarity ERP program. Create a check list, then forward it to the appropriate supervisors. We used to have daily meetings to discuss the day before, the tasks that each employee had finished, and how to resolve any issues. if any, and presenting the information to each and every GM.

I am grateful to my college for providing me with a one-month internship to gain experience in the field.

The internship cell is doing a fantastic job of giving students the opportunity to gain real-world experience that is currently lacking in the sector.

Finally, I would like to state that every student should complete an internship in order to learn about the actual job that is done in the sector.
